Can you add a line in that refers the reader to the "Other Links" to find additional Administrative Records. There needs to be some notice that these 10 are not the full suite of ARs.

Dave,

As we discussed on the phone, we are now moving the [Administrative Record Index, OU 02, Administrative Access Order, September 10, 1993 \(Opening file 335KB with links to other PDF files\)](#)  to "Other Links" and add the new AR under "Administrative Records".

My understanding is that the various stakeholders need to come to an agreement on re-arranging the New Bedford html pages to Ross's recommendations. That sounds like a good solution, but one that we can implement once everyone agrees. In the meantime, the current public comment ESD will be available on both websites.

Since we have reached the limit for NPL Pad and since New Bedford already has html pages, I recommend we move the links for all Administrative Records and decision documents from the NPL pad web page to <http://www.epa.gov/ne/nbh/techdocs.html>

Suggest reorganizing the last section with subsections to make it look like (we would fill in the gaps to make sure all the documents are listed).

On NPL Pad, we would merely have a link to the html page akin to what we do for the majority of the New Bedford content.

Does this work for everyone?

Phoebe,

Unless we hear differently, we will move the [Administrative Record Index, OU 02, Administrative Access Order, September 10, 1993 \(Opening file 335KB with links to other PDF files\)](#)  to "Other Links" and add the new AR under "Administrative Records".

If we don't hear anything by COB Monday, please make the move.

In either case (2 or 4), we need to know which AR you would like moved or removed:

<i>Administrative Records:</i>

Administrative Record Index, OU 01 Upper and Lower Harbor, Record of Decision (ROD).

Dave,

As one of the final steps on the New Bedford ESD AR project, we are placing the AR Index (with links to all the AR documents) on the NPL Pad website.

Unfortunately the structure of NPL Pad only allows for 10 postings under the "Administrative Records" heading and there are already 10 AR Indices posted in that area.

This will not affect the posting of the AR index with links to the separate New Bedford Harbor website.

I am therefore asking for direction from you and the rest of the case team on how to handle this posting.

Options include:

forego posting the AR index on the NPL Pad page

remove one of the older AR indices in order free a 'slot' for this new AR

place this AR index under a different heading such as "Reports & Studies" or "Other Links"

move one of the older AR indices to a different heading such as "Reports & Studies" or "Other Links" in order free a 'slot' for this new AR

This problem should not occur again with the final ESD AR since, we will replace this public comment AR index with the final AR index.

I look forward to your guidance on this issue.

Thank you
